Mobile X-ray Unit Will Be Back In The Glades 5 Days Next Week

The Mobile X-ray Unit will be back in the Glades for five days next week to give everyone an opportunity to have an annual chest x-ray.

The unit was here as regularly scheduled in February, but delay in getting the generator repaired after it was hit by a car while parked on Avenue A, necessitated a change in reported location.

Many folks traced down the unit and got their x-rays at the Health Department location. Many more, expecting it to be at the City Hall on certain dates, missed getting chest x-rays.

"Miss Everglades" Contest April 17

The Glades Jaycees this week announced the date for the second annual Miss Everglades Contest and made an appeal for girls from the Glades area to enter the contest.

The contest will be part of the annual Spring Harvest Festival conducted by the Jaycees and will be held on Friday, April 17, 7:30 p.m. in the Pahokee High School Auditorium.

Requirements for entry in the contest are that girls must be 16 years of age and not over 18. That is, they must have reached their 16th birthday but not passed their 18th. Girls must be a resident of any community around Lake Okeechobee, and, of course, be single.

Contestants are to have a good academic record and be a member of a local club.

The money may arrange for their own sponsors; or if they prefer, the Jaycees will secure sponsors for them. An entrance fee of \$10 is required.

Contestants will be judged in evening dress. Application forms can be secured by writing Miss Everglades Contest, Box 64, Pahokee, Florida, or calling Lewis Collins at 924-5322.

Vegetable Growers Field Day Meeting To Be Held Apr. 29

Scientists from Everglades Experiment Station, Belle Glade, will give reports on latest news concerning a number of vegetables, trees and others connected with the vegetable industry at a meeting April 29, at Indian River Field Laboratory.

Taking part in the program are Dr. J. R. Orserman, Dr. J. A. Williams, Dr. J. R. Phillips, all of Belle Glade, along with R. E. Stall and N. C. Hayslip of the Indian River Laboratory.

Chemical control, pest control, mineral and nutrient control on mineral soils of Florida will be three of the topics researchers with FAES will discuss at the annual vegetable field day.

The meeting will begin at 1:30 p.m. and will conclude with a tour of research plots starting at 3 p.m. The laboratory is located six miles west of Ft. Pierce on Federal Highway 95, between State Roads 68 and 70.

HANG OUT WELCOME SIGN

We have all read about the billions of dollars we have handed out to underdeveloped nations, about the way it has been spent and wasted, about the poverty and bad feeling it has often created. Even though our intentions were the best, the results of giving away money can never be predicted.

When people have to work for what they get they respect it. Probably no industry has done more to promote the welfare of retarded nations than has oil—not by giving away something but by going into barren areas and establishing an industry where none was before.

The industry created jobs, homes, schools, hospitals and last but not least, taxes for the benefit of all the people throughout the country in question.

A hundred of millions from our government to one of these countries is soon gone and the people too often fail to see results from it. But where a U. S. oil company goes into the same country and oil derricks, refineries, docks, tankers, roads, schools and houses follow, the people enjoy tangible benefits.

Some nations become greedy and start taxing to death the goose that laid the golden eggs. Some confiscate such properties for the state with resulting loss for all.

Nations that wish to progress can do nothing more effective than to hang out the welcome sign for industry and assure its security and fair dealing and a chance to earn a profit. U.S. oil is an outstanding example of this process at work around the world.

UNCLE DAN from DOOLIE says:

Dear Mister Editor:

As a general rule, I git lost in a string of fitters and don't waste much time on 'em but I do like the paper. There, the Tax Foundation has put out the latest picture on Federal employees and it was mighty interesting.

We now got 2,369,518 civilian employees on the Federal payroll, according to the District of Columbia to all 50 states in the Union. We got 255,000 of 'em working in the nation's capital, California running second with 251,000, New York third with 187,000, and Pennsylvania fourth with 135,000.

Vermont is on the bottom with 3,447, Delaware next to the bottom with 3,809, and Idaho third from the bottom with 7,057. I

Letters to the Editor

Dear Sirs:

This short note is to express my sincere appreciation to you for the gracious courtesies extended to us when we were in your city on our field trip.

First, thank you for your cooperation in making Mrs. Wedgeworth share some of her activities with us. She has already received our letter of thanks.

Second, thank you for your cooperation in making Gladys Mickle must have more clients as unselfish and interesting as Mrs. Wedgeworth, but the school and I just considered ourselves special to have met her.

Third, thank you for your gracious and courteous reception at the city park. What a fabulous place for children! The park director was very helpful and thoughtful of our concerns.

Our entire field trip via chartered bus to your city was a happy, memorable experience.

Yours very sincerely,

Gladys Hayes Mickle

Yours truly, Uncle Dan

Republican Commissioner Want "Only Patronage" Thru Precinct Workers

A formula for measuring how many Democrats should be used as clerks and inspectors in each of the county's working precincts still remains a question this week.

On Monday, the county board tried to find a formula but finally decided to keep precinct workers as they are now and not try to make any changes at this time.

Each commissioner is to name precinct workers in his district. Commissioner Lake Lytal said he believed the board should adopt a policy of some kind in order to facilitate listing officials and determine the necessary length of advertising.

Louis Morell, assistant supervisor of registration, who was attending the meeting on another matter, suggested that three Democrats and two Republicans be appointed to each of the 125 precincts. He said his suggestion was based on the fact there are 80,000 registered Democrats and 30,000 registered Republicans.

Board Chairman Edward Bandlow said he believed it should be three Republicans and two Democrats. His view was supported by Commissioners George Warren and Bandlow, and Warren said they had already picked precinct workers on that basis.

Said Chairman Bandlow, "It's the only way to let the people feel the people at the polls should represent the party power of the commission." The county board is now made up of three Republicans members and two Democrats members.

The board finally agreed that in view of the short time before the first primary election that no changes in the appointment formula should be made at this time.

Morell appeared before the board to request overtime pay for workers in the registrars office during the current rush. The commission approved the overtime request.

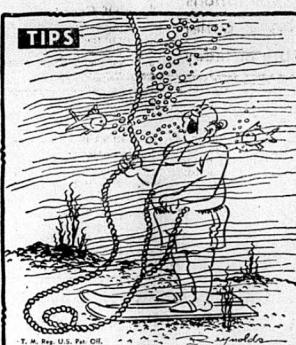

**Food-Fiber Furnished
27 By American Farmer**

How many people, outside of your immediate family, do you supply with the necessities of life? Who are you engaged in?

Unless you're a farmer, you probably have no idea. However, the American farmer supplies more than 200 individuals with his food and fiber daily.

Only 25 years ago, the farmer was supplying enough for 5 to 10 Americans when production began to accelerate in the 1950's. This was filling the needs of a population in 1955 and 26 people by 1960.

This great swell in agricultural efficiency is still rising thanks to scientific and technological advances made in agriculture. The increased productivity has released millions of workers to industry whose productive efforts provide us with the highest standard of living ever known.

Conserve Nutrients Of Fresh Vegetables

Fresh vegetables should be stored correctly in order to conserve their nutritional value.

It is poor economy to buy fresh vegetables that are rich in water and vitamins and then lose them by wrong methods of cooking.

Miss Mary L. Todd, Palm Beach County Home Demonstration Agent, says, "Both handling and preparation methods affect the nutritional value of fresh vegetables. Keep perishable vegetables in the refrigerator. Salad greens hold crispness and nutrients when wrapped well. Well-washed vegetables kept very cold. Most fresh vegetables should be used within a week after purchase."

Three important rules for cooking vegetables are: a minimum amount of water, cook for a minimum period, and expose a minimum surface area of the vegetables."

Vitamin C, like B-vitamins, and some minerals are soluble in water. More nutrients are lost when vegetables are cooked in a large quantity of water, when they are cooked a long time or when they are cut into small pieces.

Although cooking destroys some vitmain C, most of the remaining loss will be in the cooking water. Keep cooking liquids minimum, serve vegetables with the vegetable.

For a free booklet, "Conserving the Nutritive Values in Foods" write the Home Demonstration Agent at 531 Military Trail, West Palm Beach.

Shive Family Easter Dinner

Enjoyed By 38

Conserve Nutrients Of Fresh Vegetables

Fresh vegetables should be stored correctly in order to conserve their nutritional value.

It is poor economy to buy fresh vegetables that are rich in water and vitamins and then lose them by wrong methods of cooking.

Miss Mary L. Todd, Palm Beach County Home Demonstration Agent, says, "Both handling and preparation methods affect the nutritional value of fresh vegetables. Keep perishable vegetables in the refrigerator. Salad greens hold crispness and nutrients when wrapped well. Well-washed vegetables kept very cold. Most fresh vegetables should be used within a week after purchase."

Three important rules for cooking vegetables are: a minimum amount of water, cook for a minimum period, and expose a minimum surface area of the vegetables."

Vitamin C, like B-vitamins, and some minerals are soluble in water. More nutrients are lost when vegetables are cooked in a large quantity of water, when they are cooked a long time or when they are cut into small pieces.

Although cooking destroys some vitmain C, most of the remaining loss will be in the cooking water. Keep cooking liquids minimum, serve vegetables with the vegetable.

For a free booklet, "Conserving the Nutritive Values in Foods" write the Home Demonstration Agent at 531 Military Trail, West Palm Beach.

Advanced Sales

World Fair Tickets

Bring \$35 Million

W. Stenzel, executive vice-president of the Florida World's Fair Authority, announced this week some interesting comparisons to the \$35 million advance ticket sales to the New York World's Fair 1964-65.

"The huge amount of money collected for admissions during the entire season of the Seattle World's Fair. It also is almost as much as was collected in the entire first year of the 1939 New York World's Fair."

"All these ticket sales so far in advance of the April 2 opening," he concluded, "mean that many more than the 40 million visitors expected the first year (1964) will be coming to the Fair. This certainly insures that Florida will be a major attraction for millions of people who will see and know more about Florida. Thus the foresight of Florida in entering the Fair will bring the state benefits for years to come."

Marvin U. Mounts, Jr. Is Candidate For Office Of The County Solicitor

Marvin U. Mounts, Jr., 31, member of the Civic Music Association of the Palm Beaches. He is a Captain in the U.S. Air Force.

Mounts began his career in the prosecutor's office as an investigator in 1959 and has remained in the office continuously since that year. He is currently first assistant County Solicitor.

He is the son of Juanita and M. U. "Red" Mounts of West Palm Beach, both of whom are well known for their participation in county and community work.

He is married to Polly Mounts a teacher in the program for exceptional children in Palm Beach County Schools.

Born and reared in Palm Beach County he attended Palm Beach County Public Schools; graduated from the University of the State at Sevierville, Tennessee with a B.A. Degree; received his degree in law at the University of Florida.

He is a member of the Episcopal Church, a West Palm Beach Rotarian, member of the Junior Chamber of Commerce Elks, and the Executive Com-

Marvin U. Mounts, Jr.

In the past years our ban-

quets have been enjoyed very much. This year was a special year because it marked the success of the first 5 years of the D. C. T. Club at Belle Glade High School. Many extra guests were invited to attend: The cas-

uals were invited to the club by G. H. S. members and the supervisor of each student in the present class; several teachers chosen by the club members, and several students to represent the various activities in the school. In all there were 100 present. Nancy Flehs, club president extended a welcome to all present. Dr. W. T. Forsee, Jr. gave a talk on what the D. C. T. Club does for our community, students and participating students.

Catering for the meal was managed very appealingly by Mrs. Diane T. Heifers. There were delicious steaks served with baked beans, corn, baked potatoes, tossed salad, and rolls; a variety of extras such as beets, pickles, olives, pineapple, tea or coffee to drink, apple pie with ice cream for dessert.

The Negro choir from the Glades Correctional Institute entertained after the meal with several numbers including a concert of Negro spirituals.

The club ended another such a complete success.

Peace Corps Placement Test Will Be Held Apr. 11, WPB

Saturday, April 11 is the date of the next nation-wide Peace Corps Placement Test, the Peace Corps has announced. It will be held at the National Civil Service Commission in West Palm Beach at the main post office at 8:30 a.m.

It is not too late for people to apply for the Peace Corps

and still get into one of the summer training programs, officials report. This summer the Peace Corps hopes to train as many as 6,000 men and women at approximately 55 centers throughout the country. The intensive three-month training is required before trainees are finally chosen as Volunteers for overseas assignments.

The most needed skills are in the field of agriculture, health, engineering, construction and education — particularly math and science teaching. Hundreds of additional skills have been requested, such as architecture, geology, economics and social work.

The required non-competitive Placement Test — which includes a general aptitude test and a modern language aptitude test — takes about two and a half hours to complete. Applicants who know knowledge of Spanish or French should take the additional one-hour language achievement test. However, knowledge of a foreign language

is not a requirement for taking the Placement Test.

The test scores are used, along with the Questionnaire and the interview, to determine overall qualifications for Peace Corps service and to help determine the most appropriate overseas assignment.

If applicants have not already turned in their Peace Corps Questionnaire, they should bring it completed, with them when they take the Placement Test.

All applicants must be American citizens at least 18 years old.

Married couples may apply if they have no dependents under 18. A college degree is not required.

Blue Jay 4-H Club

The Blue Jay 4-H Club met with its annual officers with Mrs. Herbert Priest leader. They finished their shirts and blouses and in addition each member made a quilt.

This year the girls started on Foods and Nutrition Project, making cookies from a mix. They plan to paint and decorate coffee cans to fill with cookies and give to their mothers.

4-H Boys & Girls Have

45,000 Members in Clubs

The word "4-H" is now a household phrase to many Floridians — but only 45 years ago the "head, heart, hands and health" symbol was unheard of. Florida 4-H got its start back in the 1920's with 100 members. Airplanes were still novelties. Called corn and tomato clubs, small agricultural-oriented groups were the forerunners of today's 4-H clubs.

In 1909 J. J. Vernon, dean of the University of Florida College of Agriculture, organized Alachua, Bradford, Marion county farm boys and girls club under the Farm Demonstration Program. Almost simultaneously, girls' tomato clubs were formed in the Tallahassee and Gainesville areas.

By 1914, about 900 boys and girls were in the 4-H clubs which were later to develop into a statewide youth program with projects ranging from beekeeping to beekeeping.

The 4-H Club in Florida was officially established in 1915 with creation of the Agricultural Extension Service. As a result, the small corn and tomato clubs of yesterday have grown into a multi-purpose program involving 45,000 boys and girls in 1,800 clubs.

IN SERVICE

USS SEMINOLE (FHTC) — John T. Glisson, interior communications technician, 1st class, USN, son of Mr. and Mrs. Irvin Glisson of 101 Southwest Avenue "F," Belle Glade, Fla., is participating aboard the attack cargo ship USS Seminole in a composite U.S. National/Chinese amphibious assault exercise called "Operation Backpack" being conducted off the coast of Taiwan.

Backpack is an exercise to test the amphibious capabilities and readiness of the forces of the Seventh Fleet. The exercise, with over 40,000 men and 140 units participating, will culminate in an amphibious assault on beaches of southern Taiwan. The forces of the United States Seventh Fleet to rapidly move a significant combat force to a troubled area in order to assist the allies.

To the assault, aircraft of the Seventh Fleet will soften beach defenses. In addition, supply ships will conduct amphibious assaults against the areas surrounding the beachhead will be cleared of any obstructions and mines.

"Backpack" is similar to these exercises conducted periodically by units of the Seventh Fleet with SEATO and other allied nations. The Far East has proved that participation in combined amphibious warfare operations and to maintain working relationships with allied nations.

Glades Physicians To Attend Seminar

Physicians from Belle Glade will participate in the nine-county Cardiovascular Seminar April 15 at Good Samaritan Hospital in West Palm Beach.

The Heart Association of South Florida and Miami counties is sponsoring the second annual seminar under the direction of Dr. Sidney Davidson, chairman of the professional education committee.

Speakers to be Dr. R. Bruce Lough, professor of medicine and chair of cardiology, Emory University School of Medicine, Atlanta, Ga.; Dr. Fred Wasserman, chief of cardiology, Conch River Hospital; and Dr. Lamar Creveaux, associate professor of medicine, University of Florida School of Medicine, Gainesville.

Dr. Davidson stated that the seminar is being presented as part of a continuing post-graduate education program to keep physicians informed on recent advances in preventing and treating cardiovascular disease.

Doctors of the heart and blood vessels now cause more than half of all deaths in the United States, according to Dr. Davidson.

Martin V. Campbell Candidate for Sup't. of Schools

Mr. Campbell, based on merit and qualifications of experience and training, I will recommend and seek change in personnel where just and warranted, without fear or favor toward any one.

I am not interested in anyone or any group. I seek this office as an independent democratic ticket. I will give every effort to every single voter. Board Member or other associate with whom I have ever been associated.

On January the First, 1965, at the time the new Superintendent assumes office, the Board of Education will consist of three members with only two years experience each and two new members who have never served before. This situation is serious — probably unique and

most unusual in these United States.

A school system with a budget in excess of \$33,000,000 and some 55,000 students and a staff of over 3,000 employees must have an Experienced Superintendent.

I will do my best to provide the public with the best services as you have in Okeechobee County. Particularly, our title true with the greatest needs and burdens now faced by this Board.

RANGE and WATER HEATER

A flameless electric range eliminates pot-watching and makes cooking a joy, not a chore. Keep your kitchen many degrees cooler. Walls, ceilings and furnishings stay cool. There's no heat to burn off. It's safer, too—no flames, no fumes, no constant-burning pilot light. Get an electric range for a happy change.

For the Electric Range you'll want, visit your appliance dealer... and for the right size and style of Water Heater, see your dealer, plumber or electrical contractor.
